Engineered to **win**, built to **last**.

OPTIMIST

OneSails P1 mainsail

Technologically advanced

Special sailcloth:
the sailcloth itself is the core ingredient that provides superior performance and durability. OneSails exclusively uses a unique super stable Dacron cloth with fine yarns, a tight weave and a special polyurethane coating which provides a hard layer to stabilise the yarns. This ensures that the sail is not only very stable but still allows it to be trimmed to perfection across a wide range of conditions on the modern racing Optimist rig.

7 laser cut broadseams:
all OneSails Optimist mainsails are laser cut on computer controlled plotters guaranteeing the most accurate cutting and assembly of the sail. The 7 broadseams are carefully positioned to ensure the ultimate control of the flying shape in every part of the sail.

“Green Sails”

OneSails has a comprehensive approach to its environmental responsibility. Our sails have been engineered to the highest standards in terms of environmental impact and recyclable options. When sails

reach the end of their useful life, we make it easy for you to send them to us for reuse or recycling in environmentally responsible ways.

OneSails

Quality and performance with no compromises

P1 MAINSAIL VERSIONS>>>	LIGHT	MEDIUM	MEDIUM+	HEAVY+
CREW WEIGHT	less than 32 Kgs.	up to 42 Kgs.	up to 47 Kgs.	from 47 Kgs. onwards

Regatta service and support

OneSails Optimist class expert, Maurizio Bencic is always present at major European regattas. Maurizio is ready to offer help, support and make useful suggestions to young racers about tuning and trimming of OneSails Optimist mainsails. Maurizio has been in charge of the development of the Optimist sail programme since 2007. An accomplished sailor and past Opti-

mist racer, he is highly regarded in the development of Optimist sails and associated rigging and tuning. Whether you already own a OneSails mainsail or you are interested in buying your first one please do not hesitate to get in contact with Maurizio for any information.
